

GreenCart

Making sustainable shopping affordable, accessible, and trusted.

Industry CleanTech	Stage Seed	Location Hyderabad, Telangana, India
Funding Target \$500,000	Equity Offered 10%	Previous Funding \$150,000

The Problem

Sustainable products are often harder to discover, more expensive, and difficult for consumers to evaluate.

High Cost Eco-friendly alternatives can carry premium prices.	Fragmented Discovery Customers struggle to find trusted sustainable brands.	Low Transparency Environmental impact claims are not always easy to verify.
---	---	---

The Solution

GreenCart is a marketplace connecting customers with verified sustainable-product brands.

The platform brings sustainable products into one convenient shopping experience while helping customers discover affordable alternatives and helping brands reach environmentally conscious buyers.

Core value proposition

Discover → Compare → Trust → Purchase

Market Opportunity

GreenCart targets the growing market for sustainable and environmentally responsible consumer products.

TAM \$20B	SAM \$2B
Total addressable market	Serviceable addressable market

Business Model

GreenCart uses multiple revenue streams to create a scalable marketplace model.

Product Commissions Revenue from transactions completed through the marketplace.	Seller Subscriptions Recurring plans for participating sustainable brands.	Promotional Placements Paid visibility for relevant brands and products.

Current Traction & Financial Snapshot

\$25K	\$300K	\$18K	\$150K
Monthly MRR	Annual ARR	Monthly Burn	Previous Funding

The current \$25K MRR provides a base for scaling marketplace activity, seller participation, and customer acquisition.

Product & Customer Experience

GreenCart is designed around a simple customer journey:

1. **Discover** sustainable products and brands
2. **Evaluate** products using clear information and sustainability signals
3. **Compare** alternatives based on customer needs and value
4. **Purchase** through a convenient marketplace experience
5. **Return** to discover more sustainable products and brands

Competitive Advantage

GreenCart differentiates itself by combining sustainable-product discovery with a marketplace model focused on accessibility and trust.

GreenCart	General Marketplaces	Individual Eco Brands
Sustainability-focused discovery	Broad product selection	Focused brand experience
Multi-brand marketplace	Limited sustainability focus	Limited cross-brand discovery
Verified sustainable brands	Mixed product positioning	Brand-specific trust

Team

GreenCart is being built with a focus on sustainable commerce, technology, and marketplace execution.

Founder & Core Team

Founder and team details can be added here for the final investor submission, including founder backgrounds, relevant experience, and key responsibilities.

Note: This slide intentionally avoids inventing founder names or credentials that were not provided.

Funding Ask

\$500K	10%
Capital requested	Equity offered

The funding will support marketplace growth, product development, brand onboarding, customer acquisition, and operational expansion.

GreenCart

Building a more accessible marketplace for sustainable products.
